Would you like to provide additional comments on the answers you have provided above?

I am unsure what is meant by "streamlining permission". The Ontario government has virtually taken away protection for wetlands and habitats of species at risk.

They have also overstepped municipal government decisions. I am against building houses (or other buildings and infrastructure) on wetlands, farmland and the habitat of species at risk.

This last question gives you an opportunity to tell us more about your thoughts on housing. You decide what you would like us to share with our members.

Here are some of the housing initiatives that the Green Party will implement:

- Use covenants to make sure housing built with public money stays affordable forever.
- Close loopholes to stop criminals from using real estate to hide dirty money.
- Eliminate the unfair tax advantages for Real Estate Investment Trusts (REITs).
- Stop corporations from buying up single family homes.
