OPTIONAL

Would you like to provide additional comments on the answers you have provided above?

The Green Party of Canada believes housing is a human right and supports building new homes that are affordable, sustainable, and community-focused.

OPTIONAL

This last question gives you an opportunity to tell us more about your thoughts on housing. You decide what you would like us to share with our members.

The Green Party of Canada recognizes the vital role the real estate sector plays in addressing Canada's housing crisis, and we believe bold, collaborative action is needed to ensure everyone has access to a safe, affordable place to live. Our plan focuses on building deeply affordable, non-profit, and co-operative housing, while also supporting sustainable development and reducing barriers to construction. We are committed to working with industry stakeholders to streamline approval processes, modernize zoning regulations, and review tax policies—including targeted GST relief—for projects that deliver true affordability and long-term community benefit. At the same time, we aim to curb speculation and support stable, predictable markets by addressing housing as a human right, not just a commodity. By investing in housing that meets both environmental and social goals, we can build resilient communities and a healthier housing ecosystem for everyone.
